RICHARD COBDEN
PRIMARY SCHOOL

Year 4: Rise of the Robots

This term, Year 4 have been learning about all the different jobs that are now performed by robots. They made the link between their coding lessons and thought about the amount of accurate software engineering it would take for a robot to make a car, or vacuum our homes.

The children planned their robots, sketching front, back and side views to help realise their visions. They are currently building their robots using recycled household waste items such as cardboard boxes, yoghurt cartons and crisp tubes.

Year 5: Amazing Dioramas

Year 5 created these fantastic Space Diorama's over their Christmas holidays! In class, they have been learning all about our Solar System and the Space Race. They have also been learning how to use a range of water colour techniques to paint the different planets.

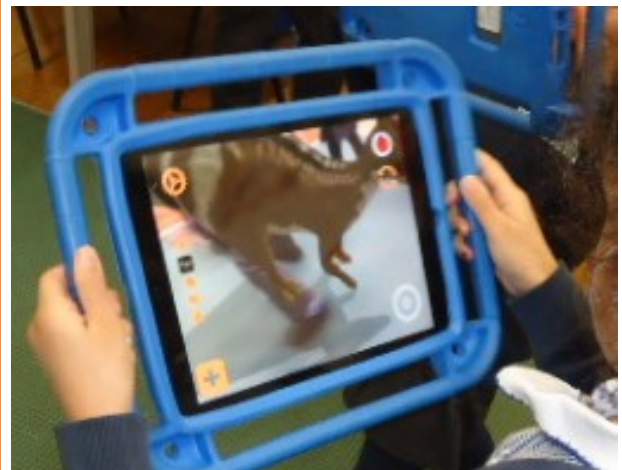

Year 1: Dinosaur!

Year 1 have begun their new topic by discovering dinosaurs frozen in ice. They worked carefully together to excavate them using warm water and salt. They studied some real and replica fossils, including a mosasaur's jaw and some huge teeth.

In ICT, they used an augmented reality app to spot dinosaurs in the playground and the classroom. This has led to some very exciting writing.
